Signed.....

Signed by parent/ guardian if under 18

In order for the bay swim to take place we have to have sufficient support boats, kayaks and motor boats to ensure the safety of the event. Over the years the same people turn out time and time again to support the swimmers and over the last few years the number of competitors has increased which results in the need for more support boats. Please could all swimmers make an effort to provide a support boat for one swim if you require any further information please ask.

I am able to Kayak or supply a support boat for the following swims
